Resume of Rhett Williams

Web Developer

0478184332 | Rhettjwilliams@gmail.com | 905/50-54 Hudson Rd, Albion, QLD, 4010 | www.rhettwilliams.netlify.app | linkedin.com/in/rhett-williams-527144220

Overview:

I am a skilled web developer with 2 years of experience in front-end and back-end development. I have a comprehensive understanding of the web development lifecycle and proficiency in React, Express, WordPress, and SharePoint/Power Automate. I deliver innovative solutions, leveraging problem-solving skills and attention to detail. Passionate about creating engaging user experiences, I stay updated with industry trends and best practices. My commitment to quality and effective collaboration makes me a valuable asset to any development team.

- Diploma of Information Technology

Queensland University of Technology - Graduated 2020

- Bachelor of Behavioural Science (Psychology)

Ipswich Grammar School - Graduated 2015

- Grades 8-12

Professional Development Experience:

RAW Marketing | April 2023 - Current

Summary:

As the sole web developer at RAW, I play a crucial role in driving the organization's online presence. I am responsible for developing and maintaining websites, both internally and for clients, by modifying existing code, managing hosting, and expertly debugging any issues. Additionally, I take charge of automating systems, streamlining operations, and enhancing overall efficiency. With a meticulous approach to web development, I ensure optimal performance and functionality while continuously improving the user experience. By leveraging my technical expertise and innovative thinking, I contribute to RAW's success in a dynamic digital landscape.

Skills:

- Developed many forms for various websites using Pardot forms or ninja forms, in <iframe> tags as well as raw html.
- Automated data flows from forms to existing salesforce campaigns to update prospect details
- Developed and maintained user friendly websites for internal use as well as external client use.
- Worked with all other departments to get resolutions to pressing tech related issues in an efficient manner.

Moonward Apps | Feb 2022 - April 2023

Summary:

As a senior Frontend Developer at Moonward, I used React and React Native to build and maintain high-quality web and mobile applications. Led the development of several successful projects, collaborating with cross-functional teams and implementing best practices for code development and version control. Contributed to the continuous improvement of the development process by staying up to date with the latest technologies and industry trends. Demonstrated strong problem-solving skills and the ability to work effectively under tight deadlines.
